

Product Datasheet

LC750S EcoSwitch™ PIR Light Switch

Convert your lighting to automatic movement activation

PRODUCT SUMMARY

- **Replace any standard light switch**
- **Activates light when movement is detected**
- **Switches loads of up to 250W**
- **Variable lux level means you dont waste power during daylight hours**
- **Adustable time delay**

This is a revolutionary new design in PIR lighting control, which enables a conventional single pole wall switch to be replaced with a movement activated detector

It means that any DIY enthusiast familiar with changing electrical light fittings can undertake this simple project in a matter of minutes. Use the EcoSwitch in hallways, stairwells, corridors, lavatories and reception areas
